

SEVERE SERVICE CONTROL VALVE SPARE PARTS

Carter Process Control GmbH offers superior quality replacement parts for control valves. These parts are engineered to provide outstanding performance and extended service life.

We guarantee that our replacement/re-engineered parts meet or exceed the quality of the Original Equipment Manufacturer (OEM) and are interchangeable in form, fit and function.

Why Choose CPC Replacement Parts?

- **ISO Certified**—Every CPC part is manufactured in ISO certified facilities and backed by a full 12 months International warranty
- **Fast Response**—Our unique methods and in house design, engineering and innovative programs allow for rapid turnaround of normally long lead items.
- **Over 30 Years**— with more than 30 years experience in the control valve market our technical knowledge is a major factor to our continued success.
- **Low Cost**— Our unique methods and simplified organisation allow for massive cost savings to be passed directly to our customers.
- **Stock**—CPC holds inventory of all soft goods for valves and actuators of CCI/BTG valves ready for immediate dispatch. In addition to the soft goods CPC also holds in stock all sizes of the OP Nozzles.

Fast Track Deliveries

Full in house design and engineering enable CPC to produce machine drawings fast and accurately to support our customers demands for fast deliveries.

- ✓ Improve Control and Reliability
- ✓ Reduce Maintenance
- ✓ Lower parts inventory
- ✓ Less costly than a new valve
- ✓ Increase production

CPC has an extensive stock of soft goods that can be shipped the same day direct to the customer

CPC also stocks in large quantities the OP Spray Nozzles.

All hard parts are manufactured in the shortest possible time with deliveries ranging from days up to a maximum of 12 weeks for the largest most complicated products.

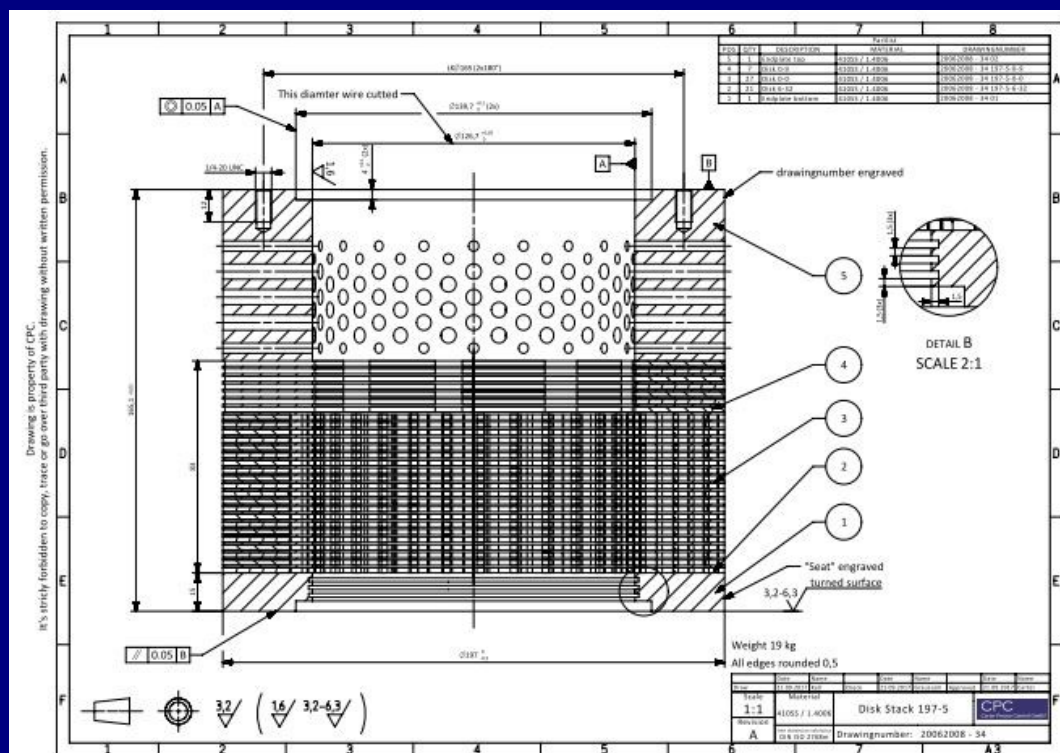

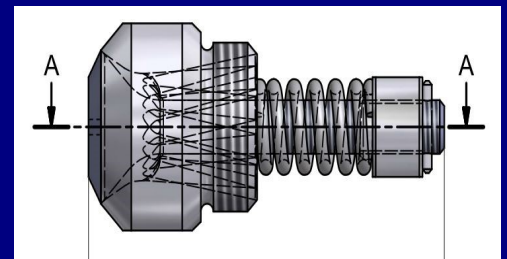

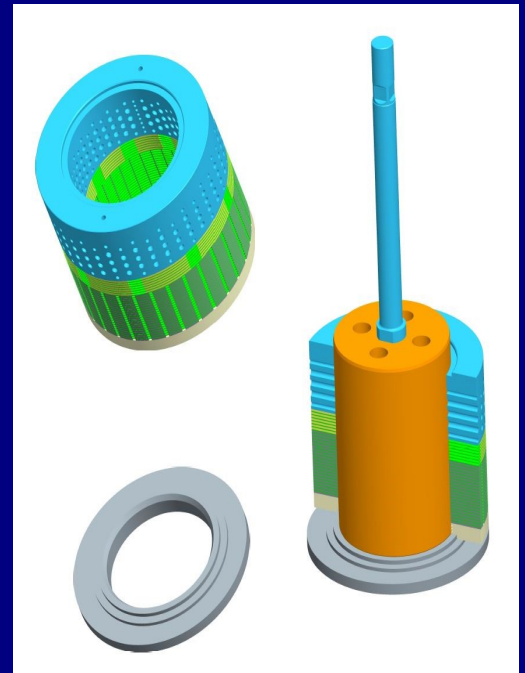

Flexitallic Gaskets, Packing Sets, Packing Spacers, Balance Seals, Pressure Seal Gaskets, Graphite Rings, Actuator Soft Goods Kits , OP Nozzle Gasket Kits etc all available from stock.

Design Engineering and Manufacturing Excellence.

CPC means performance, value, and customer service.

Direct replacements for Disk Stack technology in Severe Service Control Valves.

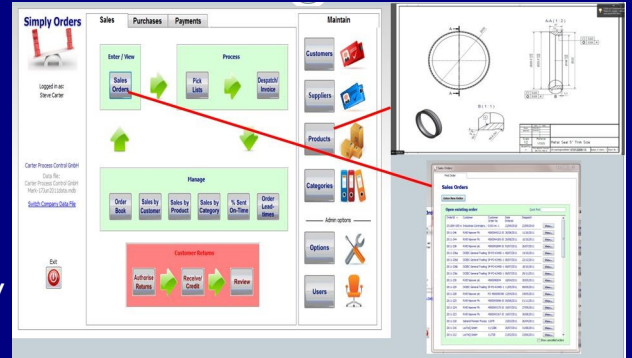

- 100% interchangeability.
- No new inventory needed.
- No retraining of personnel.
- Parts identified with OEM part number and CPC unique part number for easy traceability
- CPC standard deliveries are the best in the industry.
- The technology used by CPC is the latest such as laser cutting of the disk plates for greater repeatability, higher accuracy and faster production.

"Fast Deliveries and Low Cost Control Valve Parts"

Bespoke Order and Manufacturing Management Database

Simplified Process increases productivity and reduces delivery times.

With our bespoke order management and manufacturing database we can quickly identify the parts required, search the suppliers for raw material, find the previous order or part to manufacture. Enter the order using the comprehensive customer database including payment terms etc at the touch of a key. Verify the delivery and cost program and immediately issue the work instruction and manufacturing drawing to the factory. This means that within minutes of an order being entered the material is on the machine and in production saving considerable delays in the administrative process. In the same database we can print the packing list, delivery note and invoice associated with the order in one easy step.

"Carter Process Control GmbH guarantees that all replacement parts meet or exceed the quality of the Original Equipment Manufacturer (OEM) and are interchangeable in form, fit and function, but provide cost effectiveness by being more competitive against the OEM price."
